

DRAWING SCAVENGER HUNT

Untitled Abstraction - Andrew Tavukciyan

Abstract art is a style that doesn't try to make something recognizable from reality. It focuses on feeling, shapes, and expression! Try drawing a feeling that you had lately, without thinking too much about what the result looks like.

Moonshadow - Nasarimba

These muralists used stencils, spray paint, layering, and collage to create this abstract mural! Try capturing a texture from this wall! Place your paper on an interesting section and rub your pencil or crayon over it to see what result you get.

Mountain Memories - Steph Killet

Can you find all of the triangle shapes used in this mural? Your eyes might see the deer or the mountain before it sees the shapes that make them up. Try drawing something that has a shape used in an unusual way!

Watchmen of Kootenay - Nina Valkhoff

Every muralist signs their work differently, and some create artist names that are different from their usual name! What would your artist name be, and how would you sign it?

Bring your finished sheet back to the Muralfest Info booth on Saturday from 7-9 PM to get a prize!
